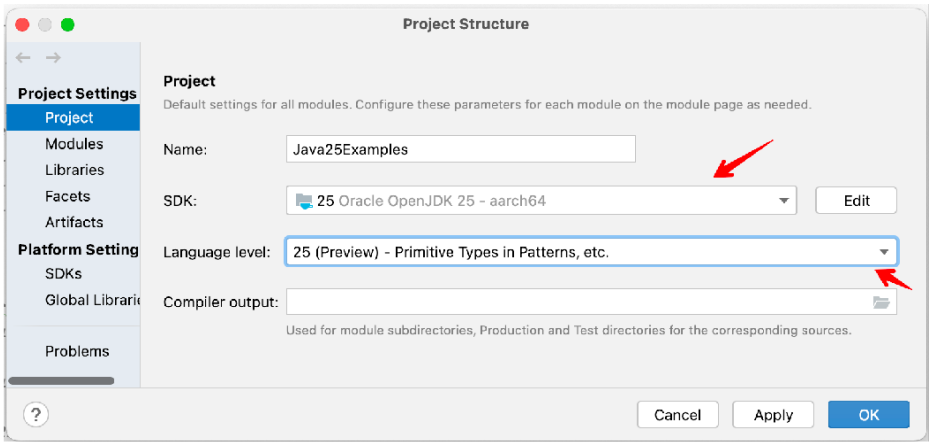
Installation Read Me

- Please install
    - the appropriate Java versions 21 LTS and Java 25 LTS.
    - https://www.oracle.com/java/technologies/downloads/
    - current IDEs such as IntelliJ 2025.x or Eclipse 2025-09 or newer https://www.jetbrains.com/idea/

    - Maven or Gradle in a current version

- As a ZIP file, you will find a project that can be easily imported as a Maven or Gradle project into the IDE of your choice.

- Be sure to activate the preview features as described in the book.



- The sample programs can be found in directories corresponding to the chapters in the book. Executable programs have a corresponding `main()` method.

- If you still have questions about importing projects or the programs, you are welcome to contact me by email at: michael_inden@hotmail.com
